

Can you guess who needs a FLU shot?

Experts, including the Centers for Disease Control and Prevention, now recommend an annual flu shot for all **children** from ages **6 months - 18 years**.

Remember:

- Fever is a key symptom of flu.
- Any child with a fever should not go to school.
- Getting a flu shot for your child can prevent over a week of missed school for them, and missed work for you.

Plan now to protect your family with flu shots for everyone this year.

For more information, call **(843) 953-2430**
or visit <http://www.scdhec.gov/flu>.

wash your hands  cover your cough  stay home when sick
